Summary

Shaping the Future of Web, Mobile, and AI-Driven Platforms

I've always been fascinated by how technology can simplify lives and transform businesses. Over 16 years, I've built my journey around designing and developing web and mobile applications that are not only robust but also intuitive and impactful. Every line of code, every workflow, and every project I take on is driven by curiosity, creativity, and a desire to solve real-world challenges.

➤ Current Role and Focus

Today, as a Web & Mobile Architect, I focus on architecting applications that combine scalability with intelligence. I design Agentic AI workflows using LangGraph.js, CrewAI, and n8n, while building dynamic web and mobile solutions with Next.js, React Native, Laravel, and WordPress. My work is about creating seamless user experiences while automating processes to deliver measurable efficiency and value.

➤ Over the years...

I've had the opportunity to lead projects ranging from multilingual WordPress platforms and analytics dashboards to AI-powered voice assistants and cross-platform mobile apps. Each project has reinforced my belief that thoughtful technology can create meaningful impact, drive business growth, and elevate user experiences.

➤ My Technical & Domain Expertise:

- ◆ Full Stack Development: Next.js, React.js, Node.js, Express.js, Laravel, PHP
- ◆ CMS & eCommerce: WordPress (Gutenberg, ACF, WPML), Drupal, Shopify, WooCommerce, Ghost CMS

- ◆ Agentic AI & Automation: LangGraph.js, CrewAI, n8n, LangChain, ElevenLabs AI, Vapi, Whisper
- ◆ Mobile Development: React Native, Cross-Platform Applications
- ◆ Databases & Cloud: MySQL, PostgreSQL, MongoDB, Firebase, AWS, Azure, GCP, Vercel, Railway
- ◆ API & Integrations: REST, GraphQL, HubSpot, WhatsApp, Google APIs
- ◆ Performance & Optimization: SEO, Core Web Vitals, Lighthouse, GTMetrix, PageSpeed
- ◆ DevOps & Version Control: Git, Bitbucket, Docker, Nginx/Apache

➤ Let's Connect

I'm driven by the thrill of solving complex problems with clean, efficient, and intelligent solutions. If you're zealous about leveraging technology to create real impact, let's connect and build something remarkable together.

Experience

Confidential

Web & Mobile Architect

July 2025 - Present (6 months)

Irvine, CA

Architecting web and mobile solutions with AI-driven workflows, delivering scalable, high-performance platforms, real-time dashboards, and optimized user experiences.

- ⇒ Designed and deployed Next.js solutions optimizing performance for high-traffic platforms.
- ⇒ Implemented Agentic AI workflows with LangGraph.js, CrewAI, and n8n integrations.
- ⇒ Developed AI-powered voice applications using ElevenLabs for HubSpot automation.
- ⇒ Built dynamic dashboards with Recharts and Chart.js for real-time insights.
- ⇒ Streamlined cross-platform project execution, enhancing delivery efficiency and scalability.

Next.js, React Native, Laravel, WordPress, LangGraph.js, CrewAI, n8n, AI Workflows

Express Analytics

Senior Software Engineer

February 2025 - Present (11 months)

United States

Delivered custom WordPress headless, Next.js and AI-integrated solutions, optimising workflows, boosting performance, and enhancing operational efficiency across enterprise-scale projects.

- ⇒ Developed custom Next.js theme with ACF Headless, improving UX and platform responsiveness.
- ⇒ Automated sales lifecycle processes with HubSpot and n8n integrations.
- ⇒ Implemented SEO strategies, increasing website visibility and engagement.
- ⇒ Collaborated with cross-functional teams, enhancing data processing efficiency.

WordPress, Next.js, n8n, HubSpot, SEO

LTIMindtree

Senior Specialist: Software Engineering

October 2023 - February 2025 (1 year 5 months)

Kolkata, West Bengal, India

Managed enterprise WordPress environments, designed Laravel backends, and implemented SSO solutions while optimizing cloud configurations for secure, scalable applications.

- ⇒ Oversaw 35+ WordPress environments on WP Engine and Azure DevOps.
- ⇒ Developed custom Laravel backends powering enterprise-grade web applications.
- ⇒ Built AWS Cognito-based authentication plugins integrating SSO functionalities.
- ⇒ Configured DNS, SSL, and Azure services ensuring secure deployments.

WordPress, Laravel, AWS Cognito, Azure DevOps, PHP

Practical Logix

Web Application Developer

April 2023 - August 2023 (5 months)

United States

Delivered custom WordPress plugins, integrated APIs, and developed dynamic themes enhancing client workflows, automation, and web performance.

- ⇒ Built ACF-based WordPress plugins with Google Sheets integration.
- ⇒ Developed custom Gutenberg themes improving UX and site performance.
- ⇒ Leveraged AI tools like ChatGPT and MidJourney for content.

WordPress, React.js, PHP, ACF, Google APIs

RedCrackle

Senior Web Engineer

March 2022 - March 2023 (1 year 1 month)

San Jose, California, United States

Delivered multilingual WordPress and React solutions, integrating custom plugins, decoupled architecture, and robust event management systems for enterprise clients.

- ⇒ Built multilingual WordPress multisite with custom ACF plugins.
- ⇒ Developed React-based plugins using decoupled WordPress architecture.
- ⇒ Designed event management system with multi-user workflow support.
- ⇒ Managed AWS EC2 hosting for optimized web performance.

WordPress, React.js, ACF, AWS, Drupal

Sterlite Power

Chief Manager Web Applications

September 2020 - March 2022 (1 year 7 months)

New Delhi, Delhi, India

Architected Laravel and WordPress applications, developed enterprise solutions, and implemented data governance systems, optimising workflows and operational efficiency.

- ⇒ Built a multi-department office space management system with Laravel.
- ⇒ Developed DGee middleware integrating GIS APIs with React frontend.
- ⇒ Designed corporate WordPress website with custom themes and SEO.
- ⇒ Created centralised Elevation API using NASA SRTM30 datasets.

Laravel, WordPress, React.js, PHP, Data Integration

Zantrik Technologies Pvt. Ltd.
